Emergency Support Section 5HS-12  
230 South Dearborn Street  
Chicago, Illinois 60604

Dear Ms. Fript:

We have received your letter dated September 4, 1990 and reviewed it in light of previous meetings and correspondence on the matter with our attorney, Mr. Charles O'Connor of Arvey, Hodes, Costello and Burman.

Our file is now literally 1½" thick and can be summarized as explaining that we never had any hazardous waste to ship during the covered period or at any other time. We were prepared to participate in a group at a nominal cost to put the whole matter behind us, but, as you are probably aware, it turned out that the lead companies in both cases of setting up a PRP committee appeared to have major conflicts of interest and the committees never got off the ground.

Please be advised that at this time we feel nothing material has changed. We would appreciate all appropriate notices, letters or other contacts be handled through me.

Thank you.

Sincerely,

Robert Weiss  
Executive Vice President
